

Leading and Managing Teams to Achieve Excellent Results

The comprehensive study of Australian businesses (now in its second edition) **First XI: Winning Organisations in Australia** highlights that some aspects of leading and managing in Australia are fundamentally different to international approaches. The Captain/Coach Leader succeeds in Australia because they:

- * Create a goal and a cause to strive for, and provide clear direction;
- * Explain reality and focus on how to achieve results;
- * Build a team, develop and grow other leaders;
- * Acknowledge and reinforce who people are; and
- * Communicate widely - formally and informally.
